ABOUT US

Rooted in Moldova's rich winemaking heritage, Casa Petru combines tradition and innovation.

We craft premium alcohol-free wines from 350 hectares of sustainably cultivated vineyards.

THE PROCESS

Using advanced vacuum distillation, we preserve the full flavor, aroma, and nutrients of wine.

Our innovative method ensures a pure, alcohol-free wine experience like no other.

A LITTLE MORE ABOUT OUR WINES

Casa Petru Alcohol-Free Wine combines all the beneficial properties of traditional wine—antioxidants, polyphenols, mineral acids, trace elements, and vitamins—without the alcohol.

Our innovative production process mirrors that of traditional winemaking, ensuring the same rich flavor and quality. At the final stage, using advanced technology, alcohol is gently removed in a deep vacuum at a low temperature of approximately +28°C, preserving the wine's natural essence and benefits.

Denovie Group owns and operates 350 hectares of vineyards in the Valul Lui Traian region in southern Moldova. This region shares the same latitude as some of the world's most celebrated wine regions, including Bordeaux, Champagne, and Burgundy in France, as well as Lombardy and Piedmont in Italy. With a similar number of sunny days and comparable climatic conditions, it provides the perfect environment for cultivating high-quality grapes.
